Buying a property in a foreign country is almost impossible without professional help.

We are very happy to have met Monique of Casa Select Andalucía and we were extremely surprised and happy with all the work she did for us, helping us finding our Spanish Dream.

But after finding your Spanish dream, when all the formalities must be done like lawyer, notary and bank, Casa Select helped us in any possible way. Now, more than 2 years later, we enjoy our house as much as possible. We even use it as an office so now and then because Casa Select helped us installing a fast Internet connection. Thank you Casa Select Andalucía, thank you Monique.
